Jacuzzi® is the leading global manufacturer and distributor of bath and plumbing products for the residential, commercial and institutional markets. Known the world over for quality products and innovative technology, Jacuzzi launched an industry with the first self-contained jetted hot tub. Today, Jacuzzi offers a line of spas for every style and budget. Backyard or bath, the Jacuzzi name stands for beauty, versatility, and excellence.

BATH SELECTOR GUIDE... Page 105
The true inventor of modern hydrotherapy, Jacuzzi, the brand synonymous with enduring beauty, will provide you with the ultimate hydrotherapy experience.

With Jacuzzi’s patented technology, sore muscles will be relieved whether you choose a traditional soaking tub, Pure Air®, a jetted Whirlpool or the combination of all three experiences in Jacuzzi’s ultimate bathing experience the Salon™Spa.

Jacuzzi’s Therapy by Design allows the consumer to add features such as Whisper Technology™ and Illumatherapy, see page XX, to our Luxury series. Another Jacuzzi first, LCD Control Panel with a bather memory function is available as a Designer Option on the Luxury Series.

Visit our website to Design Your Bath with all of Jacuzzi’s special features and options.
JACUZZI®: A LEGACY OF INNOVATION
THE FIRST NAME IN BATH TECHNOLOGY IS A FAMILY NAME
The first name in bath technology is a family name: Jacuzzi®.

Ours is a legacy born of a passion for invention. A passion carried across the Atlantic by seven Italian brothers – more than a century ago.

The Jacuzzi brothers were industrious and forward-thinking. After a lifetime of pioneering advancements in aviation and agriculture, the Jacuzzi family set their sights, more than 40 years ago, on the science of bathing. They took hydrotherapy, originally developed to treat arthritis and sold to schools and hospitals for therapeutic purposes, and then made it accessible, efficient and desirable for home use.

With science as our foundation; style, beauty, well-being and harmony are the key considerations given to all products developed by Jacuzzi® Luxury Bath. Your bathroom can become a sanctuary; an escape from the rigors of your daily life.

A legacy of quality.

From the first jetted bath all those years ago, to our most recent advancements in luxury control systems, every Jacuzzi® product is engineered to ensure that your experience is a lasting one. This naturally extends to our coverage of a lifetime limited warranty and a nationwide service network.
SELECT YOUR EXPERIENCE

SOAKING BATHS | WHIRLPOOL | PURE AIR® | SALON™ SPA
HOW TO SELECT THE BEST FOR YOU:

What bath experience is the best one for you and your family? A simple question, but with so many options we at Jacuzzi® want to help you in making a great decision for you, your family and your home.

The following is a glossary of terms to help you make your decision and aid you in using brochures and other literature:

**Soaking Baths:**
A traditional bathing experience is the foundation of hydrotherapy and is as simple as being enveloped in warm water. Jacuzzi’s classic Italian designs provide the perfect vessel for this treatment. Jacuzzi’s soaking tubs will enhance your bathroom and more importantly improve your quality of life. The traditional Soaking bath is a non jetted, non Pure Air tub.

**Whirlpool:**
Jacuzzi® is the inventor and leader in whirlpool baths. Jacuzzi’s patented jet technology provides a perfect combination of water and air to deliver an invigorating massage. The Jacuzzi® Whirlpool Bath System can be adjusted for a deep intense massage or a gentler relaxing message. Various jet sizes and purposeful placement within each Jacuzzi tub provide targeted action to distinct muscle groups with the appropriate amount of hydrotherapy.

**Pure Air®:**
Whirlpools circulate a combination of air and water to produce a soft, targeted massage. Jacuzzi Pure Air baths, by design, massage with only air. The air is distributed through a network of channels resulting in an even, subtle, full body massage.

**Salon™ Spa:**
The preeminent bathing experience is achieved in Jacuzzi’s Salon™ Spa Series. By combining the best of whirlpool technology and Pure Air® comfort, Jacuzzi has developed a sensory experience for all body types or moods. You can customize the setting to act as an air bath to escape and relax; a whirlpool to restore your body after an intense work out or use a combination of both to escape the worries of the day.
JACUZZI TECHNOLOGY
THE DIFFERENCE IS IN THE DETAILS
Patented jets evenly mix caressing streams of water and air for a full-body hydro-massage like no other. A blissfully quiet Silent Air™ Induction System ensures that nothing interrupts your tranquility. Pre-plumbed baths with exclusive Tru-Level™ bases simplify installation. Jacuzzi leaves no detail unaddressed, so you get nothing less than the most comfortable, therapeutic and relaxing bathing experience available.

SEE THE DIFFERENT
Laboratory tests clearly show how Jacuzzi outperforms other manufacturers’ jet systems, producing a deeper and wider plume of revitalizing bubbles.
JACUZZI® WHIRLPOOL: A MORE POWERFUL PERFORMANCE

What makes Jacuzzi® Luxury Bath the benchmark by which all others are judged? It’s all about the jets. Jacuzzi® jets melt away muscle tension with the ultimate hydrotherapy combination.

1. Maximum Whirlpool Action.
While ordinary whirlpools merely produce high pressure, Jacuzzi® jets massage with high volumes of water evenly mixed with air. The jets push more water into the bath at a lower pressure. The result? An extra wide, circular flow of pulsating water that stretches deeper into the bath to gently massage more areas than those directly in front of the jets. It’s the essential ingredient of true, effective hydrotherapy.

2. Choreographed Jet Placement.
Jacuzzi® jets are designed to work with the contoured curves of the bath to create complete whirlpool action and luxurious waves of relaxation.

3. Targeted Massage Control.
What trouble spots need special attention? Three distinct types of specialized jets layer your Jacuzzi® massage with a targeted back, leg, arm, hand or foot massage. Swivel the jets to hit just the right spot. Adjust the flow from feather-light to deep-tissue shiatsu. The personal massage you desire is at your fingertips.

JACUZZI® AQUALIBRIUM™
Patented Jacuzzi® jets mix water and air evenly from all directions, creating a broad circular pattern of bubbles that massage the entire body.
JACUZZI® PURE AIR®: PURE CALMING PLEASURE

Pure Air® is different, because it is uniquely Jacuzzi®. Behind our air baths stands our unique pedigree, an expertise in the science of bathing.

The experience in our Pure Air® bath is a lighter, more subtle and less targeted massage. It is created by pure air circulating through a network of air channels in, around and underneath the tub. The result is a delightful experience that will bring the ultimate in relaxation. Jacuzzi’s patented Pure Air technologies are explained here and will bring you the peace of mind that you have selected the absolute best.

JACUZZI’S PATENTED 360° BALANCED AIRFLOW:
Heated air enters the Jacuzzi patented 360° Balanced Airflow channels at various points in the network of air channels resulting in a perfect balanced flow of air. With the blower set at its highest setting the experience will be an evenly distributed massage of air bubbles delivered consistently to all areas of the bathtub.

TLC™ (THERMAL LUMBAR COMFORT)
In addition to side and bottom air channels, many Jacuzzi Pure Air® bath tubs include an extra level of pure pleasure with an extra air channels that run up the back of the bath in a delicate curve that mirrors the lumbar region of your spine, massaging your entire back. That’s what we call TLC™.

AUTOMATIC PURGE CYCLE
Drain activated or automatic purge cycles are standard features on all pure air baths. Both methods insure dry air channels following use of your bath.
SALON™ SPA: THE EXPERIENCE

Some days call for an invigorating massage, others for a gentle caress, and still others a combination of both. For all of these days, there is one remarkable water retreat. Jacuzzi® Salon™ Spas combine the therapeutic power of the luxury whirlpool experience and the calm, effervescence of Jacuzzi Pure Air®. This is the ultimate home retreat from the speed of life.

SALON SPA FEATURES AND OPTIONS

Choose your bath – combine different levels of whirlpool and Pure Air® for over 12 different experience combinations! Featuring: Multi-speed motor, all-in-one electronic control panel, chromatherapy underwater lighting, 900 watt variable speed heated air blower, RapidHeat™ in-line heater, patented Silent Air™ induction system, air flow adjustability, slip-resistant bottom, exclusive Tru-Level™ base system, Wave Pulse™ System.
BATH CONTROLS

What sort of Jacuzzi® bathing experience do you have in mind? An invigorating massage after a long day of play? A soothing surround of bubbles and air? The bathroom is the place in the home where we strip away what others want, and get to be exactly and simply ourselves. And Jacuzzi’s innovative electronics – the most advanced bath control system on the market – let you personalize that time, your way.

Chromatherapy light control, pre-set bather functions and the power to direct your jet experience... all just one touch away.

Available on Luxury Whirlpools, Luxury Pure Air®, Luxury Salon™ Spas
SOUND AND VIBRATION

WHISPER TECHNOLOGY™
AVAILABLE ON ALL LUXURY WHIRLPOOL AND SALON SPAS

Sound can be a tool for relaxation, if used correctly. By upgrading your bathtub to include Whisper Technology™, the noise and vibrations naturally produced by the whirlpool motor can be reduced to their lowest forms. So all you are left with is the soothing sound of moving water and your quiet time becomes just that—quiet.

COMPARISON CHART OF NOISE FREQUENCY
With Whisper Technology™, the whirlpool motor is mounted using special gel components. Compare a standard motor mount to the whisper mount and you will see a reduction in low frequency noise by half.

COMPARISON CHART OF VIBRATION
Deck vibration is also significantly reduced with Whisper Technology™ for a more comfortable bathing experience. This also means you will not get as much sound transferred to adjacent walls and ceilings.
LIGH TIN G

Color has the power to affect how we feel—physically and emotionally. Each color has its own wavelength and energy. When absorbed, it can create a multisensory effect within the body and contribute to your overall well-being.

Jacuzzi offers lighting in two distinct forms.

Standard Chromatherapy Lighting with two LED lenses mounted to the sidewall of the tub.

Upgraded Illumatherapy Color Jet Lighting Patented technology disperses color through LED lights hidden within four whirlpool jets, resulting in higher saturation of color within the bathing well.

The classically styled traditional oval shape allows the Luna to be placed in just about any bathroom without worry about existing esthetics.
The interior detailing of the Luxura makes this bath one of the most distinct baths in the Comfort Collection. With offerings in smaller drop-in and skirted installations, this bath is ideal for any retrofit or replacement.

SHOWER COLLECTION
SHOWER HEADS | SHOWER PANELS | STEAM AND SHOWER SYSTEMS

Features:
- Height-adjustable rain showerhead
- Multi-function hand shower
- Thermostatic mixer valve - ½"
- Six upgraded body sprays
- Temperature check spout
- Diverter to control water distribution
- Built-in anti-fog mirror
- Tempered glass accessory shelf
- Flow control on valve

Finishes:
- Brushed chrome with polished accents
Imagine the beauty of a custom shower installation without enduring a major remodel. The addition of body sprays without the added plumbing. This is the beauty of the Metallo shower panel: it’s easy to install using your existing plumbing lines and drain. Masculine and robust, the Metallo shower features a built-in mirror and a generous glass shelf.

**FEATURES**
- Height-adjustable rain showerhead
- Multi-function hand shower

Our Sedona shower system—the perfect place to center yourself, every day. Sedona offers two mainstays of revitalization—steam and shower—combined into one easily installed unit.

Your comfort is key: control Sedona’s full-body steam features with the touch of a button.

**FEATURES**

A quick and cost effective way to bring the luxury of a steam bath into your home.

- Pre-installed with powerful SteamPro steam generator
- Integrated sculpted seat
- Digital control panel with automatic timer
- Includes steam shield and drain

**COLORS**

White, Almond, Oyster, Black

**AUTOMATIC TIMER**

Take away that early morning chill and wake to a pre-heated shower.

Use the timer to automatically heat your shower to a pre-set temperature. It’s ready when you are.
STEAMPRO™
STEAM GENERATORS

AVAILABLE STEAMPRO MODELS:
SteamPro® 120 Instant Steam Generator
SteamPro® Generator 5kw, 240V
SteamPro® Generator 7kw, 240V
SteamPro® Generator 10kw, 240V

Enjoy the restorative benefits of steam — with Jacuzzi® SteamPro. Powerful and compact, SteamPro adds steam to your compatible Jacuzzi shower while being tucked away, out of sight, in your vanity, shower/steam seat, closet or attic.

DIGITAL CONTROLLER WITH TIMER AND TEMPERATURE SENSOR
Works with the optional SteamPro® steam generator to control the length and temperature of your steam bath.

30-MINUTE TIMER WITH TEMPERATURE SENSOR
Works with the optional SteamPro® steam generator to control the length and temperature of your steam bath in 30-minute increments. Not shown.

Jacuzzi’s radiant floor heating system is the unobtrusive and elegant solution to cold morning floors. Ideal for remodeling, the Jacuzzi® Electric Mat Floor Heating System is easy to install and conveniently controlled.

Available in 4-foot, 6-foot, 8-foot and 10-foot lengths. All sizes are 30-feet wide.

FEATURES
Compatible with modern tile materials and tile installation methods:
- Tested according to the ASTM C627
- Suitable for new construction and remodeling
- UL Listed and CSA Certified
- May be installed directly over plywood, concrete or backerboard sub-floors
- Costs about one cent per square foot per day when installed with the specially designed thermostat
- Convenient remote control on select models
Jacuzzi’s radiant floor heating system is the unobtrusive and elegant solution to cold morning floors. Ideal for remodeling, the Jacuzzi® electric Mat Floor Heating System is easy to install and conveniently controlled.

Available in 4-foot, 6-foot, 8-foot and 10-foot lengths. All sizes are 30-feet wide.

- **Features**
  - Compatible with modern tile materials and tile installation methods:
    - Tested according to the ASTM C627
  - Suitable for new construction and remodeling
  - UL Listed and CSA Certified

What could be more comforting than a warm, fluffy towel or cozy warm slippers waiting for you as you step out of the bath? Bring spa-like luxury home with Jacuzzi’s stainless warming drawer that slips into standard cabinetry and warms up to two towels in minutes. Or opt for the larger 42” version that accommodates up to four towels, or bathrobes and oversized bath sheets.

- **Features**
  - Two-hour automatic shutoff
  - Stainless-steel construction
  - Factory pre-set temperature
  - Uniform movement of air
  - Dry, fresh, nice and fluffy towels at any time
  - Prevent mildew from wet towels
  - Energy efficient
  - Maintenance free

- **Finishes**
  - Unfinished

- **Specifications**
  - 120 Volt, 15 Amp
  - Double-wall robust construction
  - Warms up to 120°F
BATH SKIRTS
Save time and money installing your bath. With a skirt, there’s no need to build a surround or deck in niche installations. Integral (shown) and optional skirts available on select models and sizes.

RAPIDHEAT® INLINE HEATER
Keep your bath water at the temperature you desire without adding more water. Standard with all Luxury Whirlpools, Salon™ Spas and Whirlpool Plus Whirlpools. Available as an upgrade on comfort whirlpools.

BATH ROTARY DRAIN KIT
UNIVERSAL CABLE
The 1½” complete drain kit fits most Jacuzzi Baths. Available in Brushed Nickel, Chrome and Oil-Rubbed Bronze.
HAND RAILS
Add even more peace of mind to your bathing experience with convenient railings that help you enter and exit your bath.

TILE FLANGE KIT
A great accessory if you plan to customize the tile around your Jacuzzi bath in an alcove installation.

JET RING TRIM KITS
Details and finishing touches make any room feel complete.

PILLOWS
Comfortable straight and curved pillows are a great way to enhance your bathing experience.

SYSTEMS CLEAN™ BY JACUZZI
A two-part plumbing system cleaner made specially for whirlpool baths. Systems Clean minimizes the build-up of residuals, such as soap scum, bath and body oils, and dirt from inside the whirlpool bath’s pipes, pumps, fittings and circulation system.

- Breathe new life into any whirlpool bath
- Cleans and deodorizes all whirlpool plumbing
- Fast acting, deep cleaning power
